

## SECURITY POLICY

Our aim is to provide the best possible level of Safety and Security in addition to the highest standards in Logistical Service to our Partners.

Safety and Security in ORBIT LTD covers the goods and properties of our Partners as well as the assets of our Company.

Consequently we aim to:

- Develop and ensure a Security System of the highest possible standards;
- Protect assets from unauthorized access and tampering;
- Offer modern, high-standard Asset Protection Services;
- Offer appropriate Insurance for goods in the Warehouse and in Transit;
- Ensure proper Security Techniques are implemented and followed;
- Ensure a timely information flow;
- Constantly review Techniques and Procedures in place in order to identify areas where improvements can be achieved.

ORBIT LTD is committed to the highest Freight Security Standards stated by TAPA (Transported Asset Protection Association) in order to ensure safe and secure Warehousing.

In the interests of our Partners, we work only with Suppliers whose Security Policy and Service Standards comply with the requirements of our Partners and those of our Company.

As an integral part of our effort to realize these aims, we also stress the importance of our objectives to our contracted Third Party Security Service Provider.

Safety and Security should always be valued and achieved as result of the day-to-day working processes of our Company.

ORBIT LTD obliges all employees to comply with the duties & guidelines as determined above.
